COMMENTS ON EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Dear Sir:

- 1) Referring to the Examiner's Statement of Reasons for Allowance enclosed with the Notice of Allowance, applicants agree with the Examiner's Statement that "the above references do not disclose the claimed invention". Furthermore, not only the "above references" (Ishibashi et al. and Kazuyoshi et al.), but also none of the other references of record disclose the presently claimed invention. Still further, all of the prior art of record, when viewed in combination, would not have suggested or motivated the presently claimed combination of features to a person of ordinary skill in at art at the time the present

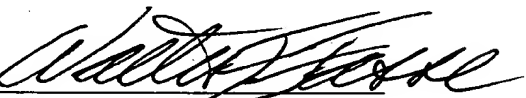

invention was made. Thus, for the reasons already of record, the present invention is not anticipated and would not have been obvious over the prior art.

- 2) The above necessary clarification of the Examiner's Statement of Reasons for Allowance is requested to be made of record.

Respectfully submitted,

Takao NAKAMURA et al.  
Applicant
